Sanket Barot – JMD Computer

Following are the websites I have design independently or in a team of 2-3 people for the company I have been worked/working for.

Static Sites (developed independently)

- <http://oxenro.com>
this is the Product Site of Water Purify RO Systems.
- <http://mcma.co.in>
this is the Community Site for Mehsana Computer Merchants Association (MCMA).
- <http://multitechsolution.com>
- <http://getfastonline.com>

This is for free Download Games, like GTA 4 - 5, X-Man Wolverine, Max Payne 1-2-3, etc...

- <http://vbngmn.com>
- <http://www.krishnaconsultant.net>
- www.onlineinfotech.org
- www.rajsmitbooking.com
- www.shukalji.org
- www.vistadelrosa.com
- www.southlandshredding.com
- www.sptechlab.com
- www.revivalentpindia.com (Not Renewed)

Dynamic Sites

- <http://uandme.jmdcomputerindia.com>

This is the Social Media Site. User Management, Admin Panel, CMS, Like Orkut etc...

- <http://pratimatrust.org>
- www.affordablecarhire.com (*Cold fusion*)

Manage online booking to rent cars as well as accounting of the hired cars.

- www.bselpearltower.co.in (Not Renewed)

Manage the online booking & accounting of 850 flats in a tower under construction in Dubai.

- www.printbell.com

Online facility to design & purchase the visiting cards & greeting cards

- www.livfurniture.com (Not Renewed)
- www.maitlins.com (Not Renewed)

Online furniture showroom

- www.yotask.com

Web based task management system. It's an online CRM system thru which an organization can manage their tasks & assigned them to their co-workers online.

CMS System

Personally developed a CMS which is used in almost more than 30 sites. This CMS has facility of...

- URL Rewriting.
- Easily manageable site contents with FCK Editor.
- Favicon setting.
- User management for authorization.
- Adding multiple categories with unlimited depth of subcategories & products in it with unlimited number of images for each category, subcategory & products.
- Dynamically generated Contact Us form
- Facility to create your own blogs as well as adding external blog feeds & allowing comments for it.
- Editable CSS from admin side to change the look of web site.
- Events/News
- RSS/XML Feed to display contents from other sites like eBay or any site providing feed facilities for their page.
- RSS feed for all pages to make the site contents available on other site.
